

DynaTred[®] by Pecora

The Industry Standard for Non-Sag, Traffic-Grade Performance

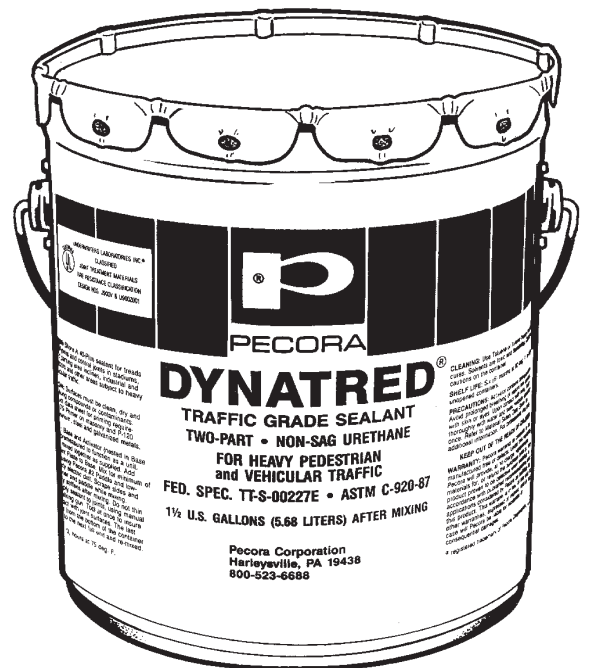

NOW IMPROVED!

Lighter Weight Formula offering Added Versatility
and Performance –

- **Improved Weathering**
- **Easier Mixing and Gunning**
- **Better Tooling Characteristics**
- **Enhanced Slump Resistance**

DynaTred delivers the effectiveness of self leveling, traffic grade polyurethane – with the versatility of a non-sag material.

Offering legendary resistance to water submersion, DynaTred is an excellent choice for sealing joints in treads and risers, V-joints, and any areas subject to heavy pedestrian and vehicular traffic.
