

FAQ for Pecora Online Product Binder

Q: What is the Quick Start box that appears to the left of the cover page of the catalog?

A: The Quick Start tool box only appears next to the cover page of the product catalog. It is there to help guide users through the catalog. The Quick Start tab explains the basics, how to turn the pages, how to zoom in and out, and how to search. The What the Icons Mean tab shows all the different icons a user might encounter in the catalog and explains what they represent. Finally the FAQ tab answers some common questions about catalog use, such as what internet connection is best when viewing the catalog.

Q: How do I navigate the binder?

A: Click on the arrows at the bottom the page or click the corners of the pages to move forward and backward in the catalog. The double arrows << will take you to the first page and the double arrows >> will take you last page.

Q: How do I zoom in and out on pages?

A: To zoom in and read the copy on a page, simply click once anywhere to zoom in and once again to zoom out. While you are zoomed in you can move around the page by left clicking and moving your mouse.

Q: Where is the table of contents located?

A: In the upper left hand corner, underneath the Pecora logo, you will see the word "Contents". All you have to do is click here and the contents menu will drop down. Each section in the contents menu is a link to that area in the catalog. Click on the section you would like to go to and the catalog will automatically take you there.

Q: How do I print a particular datasheet?

A: Notice the page number of the datasheet you want to print, for example page 40 for the Pecora Deck datasheet. Click on the printer icon in the lower left corner. This will show you a small version of all the catalog pages. Click on the page number box you want (page 40 for Pecora Deck) , click print selected and print your page.

Q: Can I print the entire online binder?

A: The binder includes 181 pages. That's a lot of printer ink. If you need a copy of a particular datasheet, individual datasheets can be printed as described above or from our website. If you need an entire physical binder, please contact Wendy Freed at 215-799-7531 or freedw@pecora.com and we'll send one right out to you.

Q: Can I download the online binder?

A: No. The online binder is an extremely large file and will use a lot of space. In addition, we want to make sure you have the most up to date information at all times. Viewing the online binder or the product section on www.pecora.com will always provide the most recent versions of datasheets, brochures and color charts.
