Adhesion, Compatibility, and Stain Test Submittal Form

All sample submittals should be made to the Technical Services Group at the Harleysville, PA address.

Test Turn-Around Times:

Adhesion	ASTM C-794	2 week minimum
Compatibility	ASTM C-1087	5 week minimum
Stain	ASTM C-1248	7 week minimum
Tensile Adhesion	ASTM C-1135	3 week minimum

Unless otherwise notified, results will be forwarded to the party identified below as well as the Pecora Field Representative upon completion of testing. Please submit sufficient representative substrate to perform all of the testing requested. Please fill out all information below if applicable. Include as much information about the substrates as possible. Examples: If an aluminum mullion is coated, identify the coating exactly and include color code and name. If a gasket is submitted for Structural Glazing compatibility, include manufacturer and part #.
