

Technical Bulletin # 94
October,2002

The following reinforcing fabric mesh products are approved for use with PecoraDeck urethane deck coating systems. Typical applications for reinforcing fabric mesh in combination with urethane deck coating systems are at butt joints in plywood decking and transitions from flashing to decking surfaces. Reinforcing fabrics are generally embedded into the detail base coat at time of detail coat application.

Product	Manufacturer	Phone Number
1. Tietex T-272	Tietex International,Ltd.	(864) 574 – 0500
2. PGM 242 Black Resin	PermaGlas-Mesh	(330) 343 - 4441

Product Information:

Fabric Mesh:	<u>Tietex T – 272</u>	<u>PGM 242 Black Resin</u>
1.) Style	T – 272	1858 –0004
2.) Weight (oz/yd²)	3.0	1.8
3.) Tensile Strength (lbs/1” width)		
Warp Threads	74	85
Fill Threads	45	85
4.) Average Thickness (inch)	0.018	0.005
5.) Description	100% Polyester	Fiberglass fabric w/ resin finish
